

[Full Name], RN, BSN

[City, State] | [email@example.com] | [Phone Number] | [LinkedIn URL]

PROFESSIONAL SUMMARY

Compassionate **Registered Nurse** with [X] years of experience delivering evidence-based care in [acute care/medical-surgical/critical care] settings. Proven ability to manage high-acuity patient loads, collaborate in multidisciplinary teams, and educate patients and families to improve outcomes. Skilled in **clinical assessment, care planning, and medication administration** while maintaining strict adherence to safety and quality standards. Dedicated to patient advocacy, continuous learning, and contributing to a culture of excellence in nursing practice.

PROFESSIONAL EXPERIENCE

[Registered Nurse – Medical-Surgical Unit] | [Hospital Name], [City, State]

[Month Year] – Present

- Deliver comprehensive nursing care to an average of [X–Y] patients per shift, including assessments, care plan implementation, and evaluation, resulting in [X%] improvement in patient satisfaction scores on unit surveys.
- Administer medications (IV, PO, IM, SQ) and perform treatments using [Electronic Medication Administration Record (eMAR)] and [Bar-Code Medication Administration (BCMA)] systems, maintaining a medication error rate of [X%].
- Collaborate with physicians, case managers, and allied health professionals during daily interdisciplinary rounds to coordinate discharges and reduce average length of stay on the unit by [X] days.

[Registered Nurse – Telemetry/Step-Down] | [Healthcare System Name], [City, State]

[Month Year] – [Month Year]

- Monitored [X] high-acuity cardiac and respiratory patients per shift using [Telemetry Monitoring System] and promptly responded to arrhythmias, abnormal vital signs, and rapid response activations to prevent deterioration.
- Utilized [Electronic Health Record (EHR) System, e.g., Epic/Cerner] to document assessments, interventions, and patient education, achieving [X%] compliance with documentation timeliness and regulatory standards.
- Precepted and mentored [X] new graduate nurses and nursing students, providing structured orientation, skills coaching, and feedback that improved onboarding satisfaction scores by [X%].

EDUCATION

[Bachelor of Science in Nursing (BSN)] | [University Name], [City, State]

[Month Year] – [Month Year]

- Relevant coursework: [Adult Health Nursing], [Pharmacology], [Pathophysiology], [Community Health Nursing], [Nursing Leadership & Management].
