

[First Last Name]

[City, State] | [email@example.com] | [Phone Number] | [Portfolio/LinkedIn URL]

PROFESSIONAL SUMMARY

Licensed **[Landscape Architect]** with [X] years of experience designing sustainable outdoor environments for residential, commercial, and public realm projects. Skilled in integrating **ecological design, site planning, and planting design** to create functional, resilient landscapes. Proven track record collaborating with multidisciplinary teams, managing projects from concept through construction documentation and administration. Adept with industry-standard design tools and local zoning, accessibility, and environmental regulations.

PROFESSIONAL EXPERIENCE

[Senior Landscape Architect] | [ABC Design Studio]

[Month Year] – Present | [City, State]

- Lead concept development and detailed site planning for [large-scale mixed-use, civic plaza, and institutional campus] projects, delivering designs that increased usable open space by [X%] while meeting stormwater and accessibility requirements.
- Produce and coordinate comprehensive **planting plans, grading plans, layout plans, and construction details** using [AutoCAD, Revit, Adobe Creative Suite, and SketchUp], reducing RFIs during construction by [X%].
- Manage client communication, stakeholder workshops, and coordination with civil engineers, architects, and urban planners, consistently delivering projects on time and within budget across portfolios valued at [\$X–\$Y million].

[Landscape Architect] | [GreenScape Planning & Design]

[Month Year] – [Month Year] | [City, State]

- Developed schematic design, design development, and construction documentation for [parks, streetscapes, and high-end residential] projects, incorporating **native planting palettes, low-impact development (LID), and water-efficient irrigation** strategies.
- Prepared illustrative master plans, 3D visualizations, and presentation boards for public hearings and client presentations, contributing to successful entitlement and approvals for [X+] projects.
- Conducted site analysis, including inventory of existing conditions, sun/wind patterns, circulation, and views, translating findings into clear design diagrams and recommendations that informed final site layouts.

EDUCATION

[Master of Landscape Architecture (MLA)] | [University Name]

[Month Year] – [Month Year] | [City, State]

- Relevant coursework: [Site Planning], [Urban Design], [Ecological Restoration], [Planting Design], [Landscape Construction & Materials].
- Thesis/Capstone: “[Thesis Title]” focusing on **[resilient urban waterfronts / green infrastructure / climate-adaptive open space]**.

[Bachelor of Science in Landscape Architecture] | [University Name]

[Month Year] – [Month Year] | [City, State]

- Awards/Recognition: [Design Studio Award / Dean's List / ASLA Student Honor Award] (if applicable).

SKILLS

Design & Technical: [Site planning], [Planting design], [Grading and drainage design], [Construction detailing], [Landscape lighting concepts].

Software: [AutoCAD], [Revit or BIM tool], [SketchUp], [Adobe Photoshop/Illustrator/InDesign], [Lumion/Enscape], [GIS/QGIS] (as applicable).

Sustainability & Regulations: [Low-impact development (LID)], [Green infrastructure], [Native and drought-tolerant planting], [LEED/SITES familiarity], [ADA and local zoning compliance].

Project Management: [Scope definition], [Scheduling], [Coordination with consultants], [Budget awareness], [Construction administration support].

Communication: [Client presentations], [Public consultation], [Stakeholder engagement], [Clear design documentation], [Report writing].

Collaboration: [Interdisciplinary teamwork with architects, engineers, planners], [Vendor and contractor coordination], [Mentoring junior staff].

SELECTED PROJECTS

[Urban Riverfront Park Redevelopment] | [City Name, State]

[Role: Lead Landscape Architect] | [Year]

- Designed a [X-acre] riverfront park integrating **flood-resilient terracing, native riparian planting, and multi-use trails**, enhancing public access to the waterfront and improving ecological function.
- Coordinated with [city agencies, environmental consultants, and community groups] to align design with habitat restoration goals and public programming needs.

[Mixed-Use Courtyard & Streetscape] | [Developer / Client Name]

[Role: Project Landscape Architect] | [Year]

- Created concept and detailed design for [central courtyard, rooftop terrace, and streetscape] that balanced **pedestrian comfort, stormwater management, and placemaking** for a [X-unit] mixed-use development.
- Delivered coordinated planting, layout, and lighting plans that improved pedestrian circulation and contributed to successful municipal design review approval.
