

# [First Last Name], [Ph.D./Psy.D./M.A.]

[City, State] | [email@example.com] | [(123) 456-7890] | [LinkedIn URL]

## PROFESSIONAL SUMMARY

Licensed **[Psychologist]** with [X+] years of experience providing evidence-based assessment, diagnosis, and treatment across diverse populations in [outpatient/inpatient/community] settings. Skilled in **[CBT]**, **[DBT]**, and trauma-informed care, with a strong focus on measurable clinical outcomes and interdisciplinary collaboration. Adept at administering and interpreting standardized psychological assessments and translating findings into clear, actionable treatment plans. Committed to ethical practice, continuous professional development, and fostering a safe, culturally responsive therapeutic environment.

## PROFESSIONAL EXPERIENCE

### **[Clinical Psychologist] | [ABC Behavioral Health Center]**

[Month Year] – Present | [City, State]

- Conduct [comprehensive psychological evaluations] using tools such as [MMPI-2], [WAIS-IV], and [Beck Depression Inventory], producing integrated reports that inform differential diagnosis and individualized treatment planning for [adolescent and adult] clients.
- Deliver [individual and group psychotherapy] using evidence-based modalities (e.g., [CBT], [DBT], [mindfulness-based interventions]) resulting in documented improvements in symptom severity and functioning as measured by [PHQ-9/GAD-7] and routine outcome monitoring.
- Collaborate with [psychiatrists, social workers, and primary care providers] in an interdisciplinary team, participating in weekly case conferences, coordinating care, and contributing to program development initiatives that enhanced client engagement and reduced no-show rates.

### **[Staff Psychologist] | [XYZ Community Mental Health Clinic]**

[Month Year] – [Month Year] | [City, State]

- Provided diagnostic intake assessments and ongoing therapy for a caseload of approximately [X–Y] clients per week, addressing conditions including [major depressive disorder], [generalized anxiety disorder], [PTSD], and [co-occurring substance use disorders].
- Developed and facilitated [psychoeducational and skills-based groups] (e.g., [anxiety management], [relapse prevention], [emotion regulation]) that improved client self-efficacy and treatment adherence, as reflected in pre/post group evaluations.
- Maintained accurate, timely, and compliant clinical documentation in [EHR system name] in accordance with [state] regulations, [HIPAA] standards, and payer requirements, while contributing to quality improvement projects focused on outcome tracking and service accessibility.

## EDUCATION

### **[Doctor of Psychology (Psy.D.) in Clinical Psychology] | [University Name]**

[Month Year] – [Month Year] | [City, State]

- Dissertation: “[Title of Dissertation Related to Psychological Topic]”.
- Relevant Training: [Psychological Assessment], [Cognitive-Behavioral Therapy], [Trauma-Informed Care].

### **[Bachelor of Arts in Psychology] | [University Name]**

[Month Year] – [Month Year] | [City, State]

- Graduated [Magna Cum Laude/with Honors] with coursework in [Abnormal Psychology], [Research Methods], and [Statistics].

## SKILLS

- Clinical & Assessment:** [Diagnostic interviewing], [suicide risk assessment], [treatment planning], [MMPI-2], [WAIS-IV], [WISC-V], [personality and cognitive assessments].
- Therapeutic Modalities:** [CBT], [DBT-informed approaches], [motivational interviewing], [trauma-focused interventions], [mindfulness-based therapies], [brief solution-focused therapy].
- Populations & Settings:** [Adults], [adolescents], [families], [community mental health], [outpatient], [integrated primary care].

- **Research & Data:** [Psychological research methods], [basic statistics], [outcome measurement], [program evaluation], [literature review and evidence synthesis].
- **Tools & Technology:** [EHR systems (e.g., Epic, Cerner, or similar)], [telehealth platforms], [Microsoft Office/Google Workspace], [secure documentation and scheduling systems].
- **Professional & Interpersonal:** [Empathic communication], [cultural humility], [crisis de-escalation], [interdisciplinary collaboration], [boundary setting], [ethical decision-making].

## SELECTED PROJECTS & PROFESSIONAL ACTIVITIES

---

### [Group Therapy Program Development] | [ABC Behavioral Health Center]

[Month Year] – [Month Year]

- Designed and implemented a structured [8-week CBT-based group] for [clients with anxiety and depression], including session outlines, handouts, and outcome measures, leading to measurable reductions in symptom scores for participating clients.

### [Quality Improvement Initiative – Outcome Tracking] | [XYZ Community Mental Health Clinic]

[Month Year] – [Month Year]

- Collaborated with clinic leadership to pilot standardized use of [PHQ-9/GAD-7] at intake and discharge, analyzing aggregate data to identify trends and inform service enhancements focused on early engagement and retention in care.
