

# [First Last, DDS]

[City, State] | [email@example.com] | [Phone Number] | [LinkedIn URL]

## PROFESSIONAL SUMMARY

[Detail-oriented general dentist with over [X] years of experience delivering comprehensive restorative, preventive, and cosmetic dental care to diverse patient populations. Skilled in treatment planning, patient education, and evidence-based clinical decision-making to optimize oral health outcomes. Proven ability to build trust with patients, lead dental teams, and maintain high standards of infection control and regulatory compliance. Adept at using modern digital dentistry tools and technologies to improve diagnostic accuracy and patient experience.]

## PROFESSIONAL EXPERIENCE

### [General Dentist] | [ABC Family Dental Clinic]

[City, State] | [Month Year] – Present

- [Provide comprehensive dental care to an average of [X–Y] patients per day, including examinations, restorative procedures, endodontic treatments, extractions, and preventive services, while maintaining a patient satisfaction rate above [Z]%.]
- [Develop individualized treatment plans using digital radiography, intraoral cameras, and periodontal charting software, resulting in improved case acceptance and increased completion of recommended treatments by [X]%.]
- [Collaborate with hygienists, dental assistants, and front-office staff to optimize clinic workflow, reduce patient wait times, and ensure adherence to OSHA, CDC, and HIPAA standards for infection control and patient safety.]

### [Associate Dentist] | [SmileCare Dental Group]

[City, State] | [Month Year] – [Month Year]

- [Performed a broad range of general dentistry procedures, including composite and amalgam restorations, crowns and bridges, simple and surgical extractions, and root canal therapy on anterior and posterior teeth, with a strong focus on minimally invasive techniques.]
- [Educated patients on oral hygiene, periodontal disease prevention, and post-operative care, using chairside visual aids and digital imaging to increase patient understanding and long-term adherence to home care recommendations.]
- [Utilized practice management software (e.g., Dentrix, Eaglesoft, Open Dental)] to document clinical notes, review medical histories, code procedures (CDT), and coordinate with insurance, supporting accurate billing and efficient scheduling.]

## EDUCATION

### [Doctor of Dental Surgery (DDS)] | [Name of Dental School]

[City, State] | [Month Year] – [Month Year]

- [Completed comprehensive clinical rotations in restorative dentistry, endodontics, prosthodontics, oral surgery, pediatric dentistry, and periodontics under faculty supervision.]
- [Participated in community outreach clinics providing preventive and restorative care to underserved populations, reinforcing commitment to accessible oral healthcare.]

### [Bachelor of Science in Biology] | [Name of University]

[City, State] | [Month Year] – [Month Year]

- [Relevant coursework: [Human Anatomy], [Physiology], [Microbiology], [Biochemistry], [Statistics].]
